Going Green

At Lyon & Pleasant Ridge Schools, we continue to make baby steps to improve our environmental footprint and conserve resources when we can. One way to do this is to reduce the number of paper copies that we make. Production of the Lyon and Pleasant Ridge newsletter is one way to do this. We have made it a goal to upgrade our online access to materials. This program not only saves trees and money, but will give families full color access to the many great photos and graphics within the newsletter. The newsletter is available on our websites: ly.glenview34.org & pr.glenview34.org. Families will now receive the newsletter exclusively online. When newsletters are posted, we will send out notification e-mails via the Lyon-Pleasant Ridge PTA list service. Please take time to register with our fabulous PTA. Access to the newsletter will be directly from the website. We will, of course, distribute printed copies of our newsletters to those families who cannot access the website and/or request hard copies.

Please fill out the information below and return it to your child's teacher. Thank you!
